

## Celebrates Teniel Ramjogi Career Milestones

After having graduated from Durban University of Technology in 2008, Teniel Ramjogi went on to achieve a postgraduate qualification in Business Management at the Management College of Southern Africa in December 2015. Teniel is actively involved with the South African Institute of Civil Engineering as vice-chairman of the JHB Committee and also serves on the University of Johannesburg Dept. Of Civil Engineering Technology Industrial Advisory Committee.

In June 2016 he joined BMK Group as Regional Manager of the Inland Region of BMK Consulting Engineers Gauteng where his duties include design and implementation of all civil infrastructure related projects, office management , business development and strategic planning.

Teniel has demonstrated excellent leadership skills and has managed a growing complement of staff at various levels for our Gauteng Office. Under his leadership, the technical teams in the region have not only delivered, but exceeded the expectations on complex projects ranging from roads and stormwater upgrades, stormwater management and design, bulk water and sanitation as well as infrastructure asset management projects for our varied client base. His multifaceted approach, technical agility and strong people skills all contribute to his success as a transformational leader.

Teniel recently celebrated a few important milestones in his professional career when he recently obtained his Professional Engineering status with the Engineering Council of South Africa on 5 May 2021. This was followed in quick succession by Teniel receiving his 5 Years Long Service Award with the BMK Group culminating in a well deserved promotion as Director of the Inland Region of BMK Consulting Engineers. His promotion is with effect from 1st June.

On behalf of BMK Management, we congratulate Teniel on these milestones in his professional career and, look forward to many years of him at the helm of BMK Consulting Engineers inland Division.
